Also I am close to my uncles, my grandparents and to all of my cousins, I have so much fun with them. . My grandparents live 30 minutes from my house, but we go every weekend to visit them.

What I expect from this year

Since I was a child, I always had the idea of going to study in USA, when I discuss the idea with my family, they gave me their support because they know that it is very important for me.

I choose USA because I want to learn about their culture, because I want to improve my English skills, understand it better and perfect it because it's consider a very important language.

Always have been the younger of my family and I think that this is a great opportunity to show my responsibility and maturity, and that I can be independent.

I would like to join a united family where I can talk and have a good relationship with them.

Well, I hope you invite me to be part of your family.
