Student Letter

My name is Gabriel and I am 16 years old. I'm pretty tall, I have blue eyes and long curly blond hair. I am currently studying my Freshman year at a public High School, my hometown is at the north east of the country.

I live near the coast, it's a very nice place. It has sea and mountains as well. It's pretty crowded and noisy, but I still love the city and enjoy every part of it. My house is in the center of the city, very close to downtown, and sometimes, if I want to disconnect I go to a rich neighborhood located far away from the heart of the city, which has a lot of big houses and silent streets. I like that place because it is quiet and I can go skating with my friends since the streets are empty and it's really calm.

There are five of us living at my house. I live with my dad, and he is a TV series and film director, my mom, who works as a clothing designer. I also have two siblings. Currently, he doesn't live at home anymore. We don't have any pets at home, but I have always wanted to have a cat as a pet, for as long as I can remember.

My hobbies are usually outdoors, such as skateboarding and surfing or meeting with my friends, but I like inside activities too, like playing videogames, table games, reading, watching movies....I also play football in a team, and I enjoy it a lot. I used to play tennis too, but I quit because I didn't have enough time.

We have a house in the countryside, in a little village. It's a pretty cold place, nevertheless, during summer it can reach the 40°. We usually go there during the weekends to relax, going on hikes, going swimming on the rivers and lakes, going biking.... I love going to the river with my father, no matter how the weather is like.

We are a traveler family, we try to travel every summer and escape somewhere. All of us enjoy exploring and experiencing new things a lot, no matter if it's far or close from home. We have been to Tunisia, to Hungary, to Turkey, to the States (New York, Los Angeles, San Francisco, Big Sur...) all over Italy, France, Great Brittan, Germany....

I would like to study this next year abroad for many reasons. I want to learn and improve my English, and also want to meet new people and friends who would like to show me new traditions, ideas, and experiences, and to end up having a very good memory of it. I have always been really curious and passionate about trying new things. I am excited to be travelling to the States and to have the chance to learn many things and visit many places.

Thanks for reading my letter and giving me the oportuny to experience a year with you. I really hope to see you soon and we finally know each other
