Father, 54, Dentist  
Other/Legal Guardian, 19, Student  
Brother (19)

## Student Letter

Hi, my name is Juan Pablo. I'm Mexican and I'm 15 years old.

I'm studying 10th grade in high school, I have a lot of friends and I have a great relationship with all of them.

My notes are good and I like to go to school.

I live in a little town. where agronomy is everywhere and the weather is comfortable. The people are usually friendly and kind.

My dad work as a dentist in his own clinic and my mom works as a seller of clothes for health specialists.

I have a brother who goes to college. My parents taught me to be grateful, studius, working, kind, perseverant and honest.

I like to read books about businesses, psychology, politics and history.

One day I would like to be a great businessman and being happy with my work and life. I'm an ambitious person because I want to help others with my

influence and power.

In my family I have acquired many values. My role models are Richard Branson, Elon Musk, Grant Cardone, Tai Lopez and Patrick Bet-David.

What I admire most about people is perseverance; intelligence, hard work and the capacity of launch a new project.

I like the sports specially soccer. I've been practiced soccer since I was 7 years old. My favorite soccer team is Real Madrid and my favorite soccer

player is

Cristiano Ronaldo. I also like the gym. I like the outdoor activities like mountain bike. I like to be with nature and try extreme sports. In my life I've been

trying a lot of sports like tae kwon do, swimming, soccer, tennis, baseball and mountain bike.

I like to visit new cities and travel to other countries to learn new cultures. I would like to meet all Europe and specially the Real Madrid Stadium.

I prefer warm climates because sometimes I get sick, I suffer from asthma. My disease isn't severe, I've been controlled for a long time; I just get sick in extreme climates and I have never used inhaler.

I have a business with my mom and brother to learn how to make businesses and how to sell. I like pets specially dogs.

I have a dog called "Rocky" is a Chihuahua, I've had it for 7 years, he is getting old.

I like the music like pop, electronic and hip hop.

I want to go to the United States to improve my English and get new values that will be useful for my whole life.

I think that the English is very important for being a great professional and have new opportunities in life.

I would like to study the university in the United States in the greatest universities such as Stanford business school, Pennsylvania business school or

University of Chicago. What I pursuing in life is to help people and have a happy life. I would be a good choice for being in your home because I'm honest,

clever, friendly and I don't like to cause troubles. I hope you pick me you'll never regret it and I hope to see you soon.
