Student Letter

Dear American Family,

I'm glad to write this letter to you, I would like to introduce myself to be a closer. I am simply boy who wants to know more, to improve his knowledge and change his vision about the world. I am ambitious, I enjoy singing playing the instruments, acting the play, doing more sports and studying everything. I have to keep a tidy the house, to wash the dishes, to buy some products and so on, especially the outside works.

My city is small. But it's so beautiful and young city which was established in 1963. We haven't many parks, but we have a wonderful Caspian Sea. You can feel good and listen to the sounds of waves and that's so amazing feeling you've ever had.

I'm very communicative person. I can find a common language with anybody. I'm interested in learning languages, because I want to become a polyglot. I like reading books and of course, to see its film and then criticize it. I like acting the role, because I'm an actor of my school and I like going to the theater and museum, because I think that there is you can change your opinion about something and even improve your acting. I like running on fresh air, because it's improving our health. I do some sports, such as Thai boxing, swimming and volleyball.

My friends are cheerful. They can have a fun and support you, I respect them. We like going to the movie at least once a week, and sometimes we spend our free time on the seaside. I wish to find similar friends in America too.

I want to know and achieve a real American dream. I want to find some friends and one more family on other side of the world. I want to bring some new technologies to my country. I want to present an American people my country, our traditions, our interesting places, our wonderful language, teach them how to play our national instruments and to help them to change their vision about the world and know more. I'm sure I can do it anyway, because "East or West home is best", as the saying goes!

Best,

Kurmet
